

Requirements Document: Team Page & Login

Mahhe Abdulahi (BA) - Team 33 – Enterprise Supply Chain Data Portal

1. Purpose

The purpose for this document is to define the requirements for the team page and login page styling for the mock sprint. These requirements are to be used by the UX and development to guide the design and implementation

2. Scope

In Scope

- Login page styling
- Team page content
- Team Member Information (Member Photo, Name, Role, Blurb)
- Handling identified content edge cases
- Navigating from successful login to the team page

Out of Scope

- Changing authentication logic
- Changing session behaviour
- Features beyond the login and team page

3. Functional Requirements

ID	Requirement
FR-01	The team page must display the team name.
FR-02	The team page must display each team members photo, name, role, and a short blurb.
FR-03	The team page must have a suitable placeholder when a team member's photo is unavailable.
FR-04	Long team member names must be displayed without it breaking the page layout.
FR-05	Long blurbs must wrap appropriately without breaking the page layout.
FR-06	Successful login must continue to lead the user to the team page.
FR-07	The login page may be visually styled to match the overall design

4. Non-Functional Requirements

ID	Requirement
NFR-01	The login and team pages should use a clear and consistent visual style.

5. Constraints

ID	Requirement
C-01	Existing authentication logic and session behaviour must not be modified.
C-02	No other feature besides a styled login page leading into the team page should be built.

6. Edge Cases

- **If** a team member has no photo **then** display a placeholder
- **If** a team member has a long name **then** the text should remain readable and contained within the layout
- **If** a team member has a long blurb **then** the text should wrap without it breaking the page layout

7. Acceptance Criteria

The requirements can be considered satisfied when:

- ☐ Team name is displayed correctly
- ☐ Each team members photo, name, role and blurb are displayed.
- ☐ Missing photos are handled with a placeholder
- ☐ Long names and blurbs do not break the layout.
- ☐ Login page is styled without changing the authentication logic or session behaviour
- ☐ Successful login leads to the team page
